

New Service Change Notice

Beginning in APRIL 2022

**Wyoming County will be deploying
curbside collection carts.**

Dear Wyoming County Resident,

We are pleased to inform you that the Wyoming County refuse & recycling collection will be changing to a cart based curbside collection program.

In April 2022, the county will be deploying the delivery of 96 gallon refuse and recycling carts to each resident. However, residents do have the option to opt in for smaller 64 gallon cart sets instead of the 96 gallon size. This is a one-time option. If you opt in for the smaller cart set, the cost for the service remains the same for either size.

If you would like to receive the smaller 64 gallon cart set, please contact the Wyoming County Planning Department directly by phone or email before Monday, February 14, 2022.

Please call or e-mail with your name and address to opt in for the smaller 64 gallon cart set. Otherwise, you will be provided with the larger 96 gallon cart set. Thank you!
